2. Cleaning Roller Installation

Ribbon cartridge

1. Gently lift the upper cover switch.

2.Open upper cover, take out the ribbon cartridge.
3. Remove 3M hyaline layer on cleaning roller surface.

4.Take the cleaning roller's both sides by hand. After pushing into the mounting position, gently press down.

> ℹ The purpose of the cleaning wheel is to absorb the dust on the card and improve the printing effect. Replace cleaning roller after every roll of ribbon use up.

Note：

To not interfere with the card printer work normally, when use the card printer for the first time,please take out the pearl cotton inside the card printer as shown below (the card printer does not need to be placed in the pearl cotton when the card printer works normally, please refer to "Use Manual")

3. Ribbon Installation

1. Open the upper cover, take out the ribbon cartridge, install the ribbon into the cartridge according to the color direction.
2.Red roller supply with unused ribbon. White roller supply with used ribbon.

3. Take ribbon cartridge's side, Red roller close to the Back-end card exit mouth, install the ribbon cartridge.
ℹ️ In order to ensure the normal use of the printer, please use Seaory original ribbon.

4. Driver installation

1.Power adapter 24V connector is inserted into card printer power interface. Connect the power cable to the power adapter. Then plug the power cable into the mains socket. But do not power on until the driver installation is complete.
2. Connect the square port of the USB cable to the card printer and connect the flat port to the USB port of the computer.

3.Use CD-rom or download the driver installation package on the Seaory's official website, double-click above driver installation package.
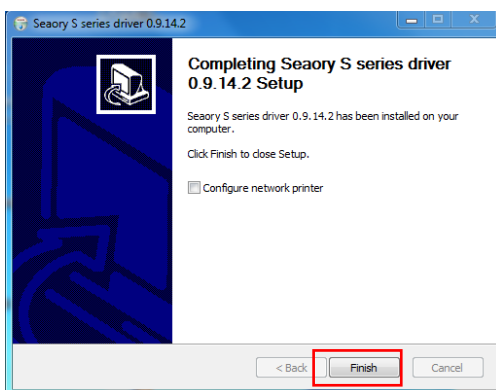

4.Click "Install".

ℹ️ Please install driver by administrator and close all antivirus applications before installation.
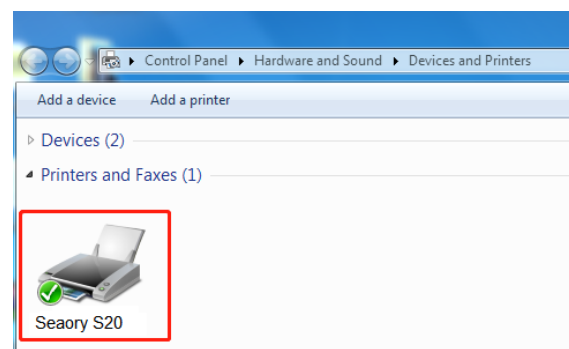

5. Begin to install, please wait for a while.

6. During the installation process, when the above page appears. Please select always trust software from "Shenzhen Seaory Technology CO., LTD " in the pop-up windows, then click the "Install" button.
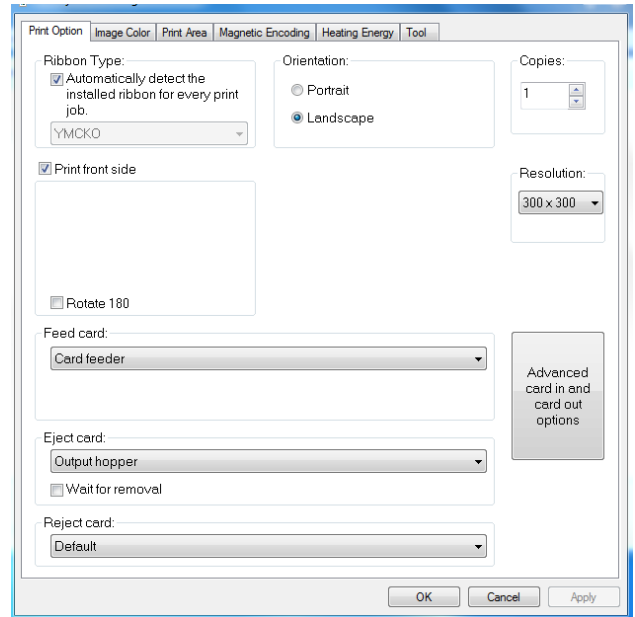

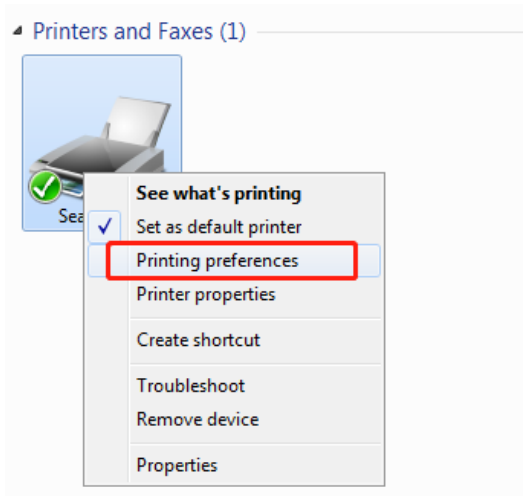

7. Wait for one minute, this page appears, click "finish".
